## ABOUT GROHE

Grohe AG is Europe's largest manufacturer of sanitary fittings, including kitchen and bathroom faucets & taps and shower systems. Grohe has a worldwide market share of roughly eight percent in this product segment. The Grohe corporate centre is located in Düsseldorf, Germany, and it has offices in many parts of the world, including a US headquarters in Bloomingdale, IL. Grohe has six production sites, with locations in Portugal, Thailand, and Mexico, along with three in Germany.

## GROHE HISTORY

### The Tradition of the Masters of Technology.

GROHE has a rich tradition of creating market-leading products. GROHE has expanded its core competencies by acquiring the skills and experience of innovative enterprises. Each new acquisition has made a new know-how incorporated in the portfolio.

**1817 – Eichelberg:** Eichelberg, the oldest German manufacturer of sanitary faucets, is founded in Iserlohn. In 1991 it is integrated into the GROHE group.

**1873 – Carl Nestler:** Carl Nestler Armaturenfabrik, the first company to produce thermostats for private bathrooms, is founded. Since 1956 part of GROHE Group and later renamed to GROHE Lahr Thermostats.

**1910 - DAL:** Deutsche Armaturenfabrik Leipzig (DAL), inventor of the flush valve (1914), is founded. In 1994 it becomes part of the GROHE Group.

**1911 – Berkenhoff & Paschedag:** Berkenhoff & Paschedag, a manufacturer of bathroom fixtures is founded in Hemer 1911. Friedrich Grohe leaves his father's manufacturing business and buys Berkenhoff & Paschedag in 1936.

**1914 – First flush valve:** Richard Rost - the technical head of DAL - starts the development of the flush valve. The invention of the automatic flush valve is launched in 1914.

**1936 – Founding year of GROHE:** Friedrich Grohe buys Berkenhoff & Paschedag in 1936. Later in 1948 Berkenhoff & Paschedag is renamed to Friedrich Grohe.

**1948 – Friedrich Grohe:** 1948, the company is renamed after its owner, Friedrich Grohe Armaturenfabrik.

**1956 – GROHE Thermostate:** GROHE acquires Carl Nestler Armaturenfabrik, the technological leader for thermostats, creating the subsidiary GROHE Thermostat GmbH.

**1968 – One hand mixer:** The introduction of the popular one hand mixer.

**1991 - Eichelberg:** Eichelberg is part of GROHE

**1994 - GROHEDAL:** GROHE acquires DAL, producer of installation and flushing systems and a technological leader of the industry.

**1997 – Design Center:** GROHE opens the new Design Centre in Edelburg, Hemer.

**2011 - SPA:** The GROHE SPA range of premium products is launched. From the washbasin to the bathtub and shower the GROHE Spa collection offers a wide range of high-quality fittings.

**2014 - LIXIL:** LIXIL Corporation and Development Bank (50% JV) of Japan acquire 87.5% equity interest in GROHE Group

# TECHNOLOGY GROHE

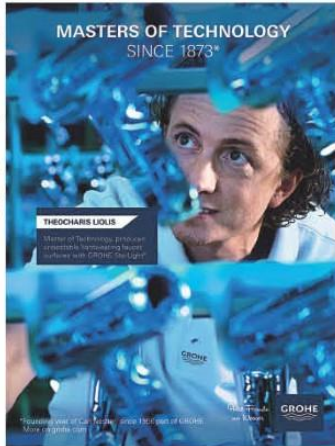

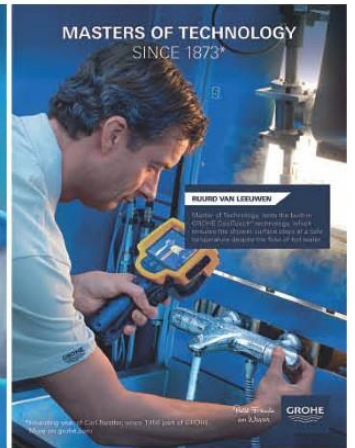

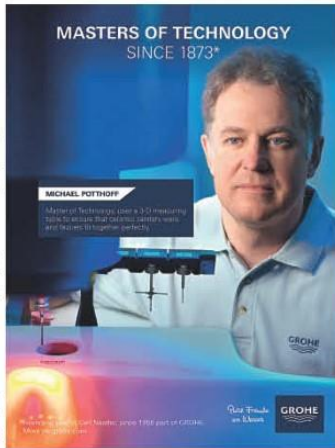

## 140 years Masters of Technology

For 140 years, the Masters of Technology's trailblazing innovations and exceptional quality have injected new impetus into the industry. Here we introduce some of the company's current employees who keep the same ideals alive today.

Over a hundred years before creative gusto and visions of technical advances inspired the likes of Steve Jobs and Bill Gates to establish start-ups in their parents' garages, the German innovator Carl Nestler had already taken a similar path.

A true pioneer, Nestler obtained a lathe – no easy feat in 1873 when an entrepreneurial boom had created a shortage of the machines. He set up a small foundry with a kiln and smelting furnace in the cellar of his parent's home in Lahr and started producing faucets and fittings.

He soon earned a reputation in the region as faucet-maker Nestler. Over the years, the Carl Nestler company became one of the industry's most active powerhouses. It was above all instrumental in developing advances in thermostat technology – which was still in its infancy. The production of the Lahr ½ inch "people's thermostat" was just one such milestone.

Precise and effortless water control for a lifetime of smooth and comfortable faucet handling.

A radiant chrome finish that resists soiling and tarnishing for enduring pristine looks.

Perfectly matched nozzles for a perfect spray pattern.

Always the right temperature. Reacts instantly to changes in water pressure.

No risk of scalding yourself on a hot chrome surface.

Integrated water-saving technology reduces water and energy consumption without compromising on design, performance and product enjoyment.

## GROHE DESIGN

### Beauty Generates Love - GROHE Design

At GROHE, design is more than just aesthetic trappings. It is a quality feature and stands for the perfect synthesis of form and function. The result is the joy you experience every time you use our products.

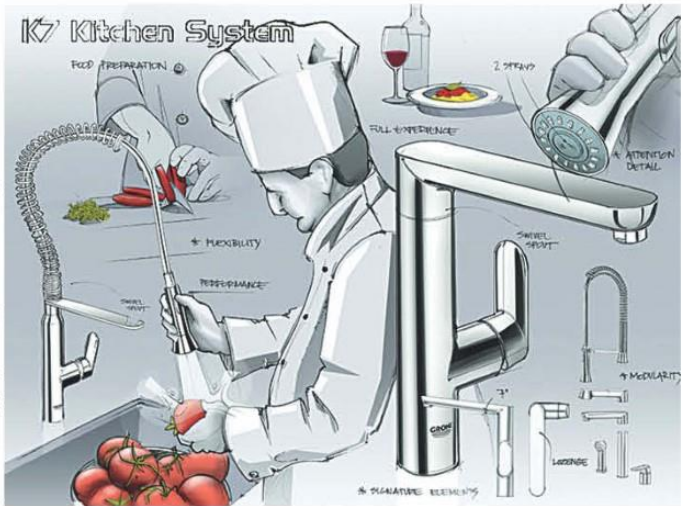

And the joy we experience every time we receive an award for our uncompromising love of quality.

An outstanding design pedigree always comes with a strong brand DNA.

In our case that means subtle cues: a precise seven-degree incline on our levers and spouts; rings to emphasise areas of importance; and lozenge shapes which convey our philosophy of sensual minimalism.

You won't consciously notice these elements. You will simply absorb them and be drawn to them. They will invite interaction and guide the user experience to ensure years of enjoyment.

GROHE's zeitgeist design team, led by Paul Flowers, has in recent years been awarded an impressive number of international best-of-the-best design awards. Expert juries agree with consumers time and time again – GROHE design offers an excellent balance of innovation, functionality, quality and aesthetics.

## QUALITY BY GROHE

### GROW OLD TOGETHER - GROHE QUALITY

Everything at GROHE comes with a seal of exceptional quality. All our products' components, ease of operation and perfect looks have to withstand numerous endurance tests – the toughest in the industry – and pass with flying colours before the products leave our premises.

Also in independent tests overseen by rigorous juries, our faucets, showers and thermostats sparkle. In a durability test conducted by German testing and inspection services provider TÜV SÜD, GROHE's Eurodisc won against nine other prestigious competitors. Thanks to GROHE SilkMove® technology that ensures incomparably smooth and easy operation in all of our single lever mixers. In a survey by LGA Qualitest GmbH, our Grohtherm 3000, 2000 and 1000 thermostats each took first place among 17 thermostats from European manufacturers. Thanks to GROHE TurboStat® and GROHE CoolTouch®, our Grohtherm 3000 even came out overall winner with top scores in four categories.

# FAUCETS

GROHE bathroom faucets unite award-winning design with the finest materials and the latest industry-leading technologies. Every collection offers a wide choice of faucet typologies to complement the latest bathroom ceramics and your personal styling preferences.

# BauCurve

## Sweeping lines and a softer aesthetic

Sweeping lines and a softer aesthetic are key to creating a comfortable and contemporary bathing space.

The dynamic design of BauCurve entices interaction through the confident execution of its fin-shaped lever handle. Arcing towards the user, it gives effortless control over the water flow and temperature ensuring perfect delivery for years to come.

### Comfort and safety for all user.

Washing your hands with your hands free – this is the idea behind the wall-mounted Euroeco mixers. Wall-mounted installation keeps the basin free, and in order to reduce the risk of accidents caused by projecting parts, faucet levers and spouts are available in a choice of lengths.

### Attention to detail.

Modern architectural spaces command attention to detail. All elements must be considered to ensure that form and function achieve a harmonious balance.

Available with a choice of three graphic spout shapes: U-shape, C-shape and L-shape; Minta fuses the visual clarity of its slender swivel spout with the convenience of a pull-out rinsing spray.

### Contemporary design and maximum functionality.

Zedra combines contemporary design and maximum functionality with exemplary reliability for rigorous everyday use.

The body flows elegantly into the wide swivel spout in full harmony with the GROHE design aesthetic. The extensive range offers a lot of variety: choose between versions with a pull-out spray that extends the operating radius of each model.

# Rainshower SmartControl

## The simplicity of water enjoyment

XXL Enjoyment & 100% Control - that's how you want to shower. You want to enjoy your favourite spray pattern – revitalizing or relaxing, stimulating or soothing – and you want to switch patterns easily.

You want your shower at exactly the right temperature – whether tension-busting hot, blood pumping cold or just comfortably warm. And of course you're conscious of using exactly the right amount of water that you need.

# Concealed Shower Controls

## Concealed Shower Controls

Concealed bath and shower faucets lend a clean, modern look to a bathroom – where only the essential elements are on show. With its shallow installation depth and choice of single lever or thermostatic operation, Rapido is a universal solution that enables you to create your perfect shower. Once installed, the concealed body is completed with a faucet trim set, available in a wide range of designs to match our faucet and shower collections, the trim set can be chosen at a later stage as all designs are compatible with the concealed body.

## Head Showers

GROHE head showers come in all shapes and sizes to match your design and budget requirements. All designs feature GROHE dreamSpray® technology for a luxurious full spray and unbeatable showering enjoyment, while Speedclean shower nozzles prevent the build-up of limescale. GROHE head showers can be installed as part of a complete, luxurious, tailor-made shower, powered by GROHE turboStat® thermostatic water controls.
